DETAILED ACTION

Request for Continued Examination

The request filed on 9/29/2004 for a Request Continued for Continued Examination (RCE) under 37 CFR 1.114 based on parent Application No. 09/611,413 is acceptable and a RCE has been established. An advisory action was mailed instead of an action due to an inadvertent error on the part of the office. An action on the RCE follows.

Double Patenting

The provisionally rejection of claims 1-22 and new claims 23-25 under the judicially created doctrine of double patenting over claims 1-24 of copending Application No. 09/611,332, is maintained for the reasons set forth in the office action filed 7/5/2002.

The applicant argues that the provisional double patenting rejection, in view of 09/611,332, is invalid because neither application has been allowed. This argument is moot, because 09/611,332 was allowed on 9/23/2003. Since application 09/611,332 has been allowed, the double patenting rejection is valid and a terminal disclaimer would be required to overcome the instant double patenting rejection. The examiner acknowledges that a terminal disclaimer was filed in application number 09/611,332, however it cannot disclaim the instant application, as the instant application has yet to be patented. A terminal disclaimer is necessary.
